February 1, 2010

Dear Student:

The faculty and steering committee of the OSSM Chickasha Regional Center for the Oklahoma School of Science and Mathematics are pleased that you are considering applying for the 2010-2011 school year.

The Chickasha Regional Center is designed to provide a rigorous one-year program of academic instruction for students talented in science and mathematics. The classes are held on the Canadian Valley Technology Center campus in two special well-equipped classrooms. Students attend the Regional Center on a half-day schedule while remaining in their local high school for some academics, electives, and extra-curricular activities.

Please review this application booklet carefully. It is designed to supply you with the basic information about our application process, a brief overview of our history and educational philosophy, and course descriptions.

All application materials must be received by March 12, 2010. The admission committee will review all data and select the semifinalists. Applicants will be notified March 19, 2010, if they have been selected as semifinalists. These students will be invited to CVTC for personal interviews Friday, April 16, 2010. The finalists will receive written notification from the Selection Committee on April 28, 2010.

We look forward to receiving your application. If you have questions or concerns, please do not hesitate to call our professors at the Chickasha Regional Center at Canadian Valley Technology Center, Chickasha campus.

Sincerely,

Edna McDuffie Manning
